Skincare products from 'beauty professional salon'
For more radiant skin. For more translucent and moist skin.

Our wish is to make your 'skin' happy.
 Touching your skin gently, smoothly, showing vigorous and immediate results.
 Satisfy your skin with happiness... We will make our utmost efforts.

Skin originally has self-recovering function to become beautiful. However the function starts to decay due to the factors such as ageing, UV ray, air pollution and the stressful life we're living. Lack of any of the conditions such as 'Moisture, smoothness, tensity, elasticity and lustrous complexion' means there are signs of ageing starting to show. It is essential to start early with the proper skincare routine to stop the radical unpleasant changes. Ever Feel Cosmetics puts emphasis on bringing out the skin's natural recovering function and aims for "clearer and healthier skin" applying "Ageing Care Formula" with carefully selected natural extracts and the latest water science. The seansational feeling you can achieve after applying the daily skin care.

『Ever Feel Cosmetics special formula skincare series』

1. Carefully selected natural extracts

Caring for dry and sensitive skin with a combination of several naturally-derived moisturizing ingredients. Boosting moisture and resistance, leading the skin condition to its best for longer hours. Various extracts are used to meet the needs of each cosmetic.

Royal Jelly: extracted from laryngeal part of young honeybee.

Rosemary: extracted from Rosemary leave or flower

Scutellaria root : extracted from scutellaria baikalensis root

Licorice: extracted from licorice root or rhizome

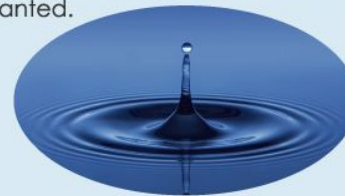

Orchid: extracted from orchid

Peony: extracted from peony root.

2. "Electrolized Deoxidized and Ionized Water"

Water is essential and main ingredient for cosmetics. We use "Electrolized Deoxidized and Ionized Water" to bring out the best function of "water" that we take for granted.

"Electrolized Deoxidized and Ionized Water" is made from water and it contains ample minus ion obtained by our original electrolysis technology.
